

## **Magnet Products International Group, LLC ("MPI Group") Adds 50", 54" and 60" Wide Magnetic Receptive Sheeting and Offers 10% First Order Discounts**

*Magnet Products International Group, LLC ("MPI Group") is now offering 50", 54" and 60" wide magnetic receptive sheeting for wide format printers, sign shops, commercial printers, exhibit suppliers/distributors, and others customers. For a limited time, customers who reference Promo Code "MPIDISC10" will receive first order discounts of 10%.*

[Magnet Products International Group, LLC](http://www.magnetpi.com/flexible-1/magnetic-iron-receptive-sheeting.html) ("MPI Group") announced today that it has added 50", 54" and 60" magnetic receptive sheeting to its comprehensive product line-up. The new products can be ordered by phone, email or online at <http://www.magnetpi.com/flexible-1/magnetic-iron-receptive-sheeting.html>, and for a limited time, customers who reference Promo Code "MPIDISC10" will receive a 10% first order discount.

Based on their requirements, customers such as wide format printers, sign shops, commercial printers, exhibit suppliers/distributors and others can choose from among the following magnetic receptive sheeting laminates and sizes:

- PET for UV and Latex Inks: 10 mil x 50", 54", 60" x 100'
- PET for Solvent, Eco-Solvent and Laser Inks: 10 mil x 50", 54", 60" x 100'
- PP for UV and CMYK: 12 mil x 50" x 100'
- Paper for UV and CMYK: 13 mil x 50" x 100'
- PET for Projection and White Board: 12 mil & 20 mil x 48" x 50' & 100'
- PET for Green Chalk Boards: 12 mil x 48" x 50'

Please note that the measurements above refer to total thickness. Samples are also available upon request for a nominal handling fee and shipping costs.

"We pride ourselves on listening to our customers and responding to their needs," commented a spokesperson for MPI Group, which is a leading manufacturer and distributor of flexible magnets, hard permanent magnets, and promotional products. "They told us that they wanted top quality, yet affordable magnetic receptive sheeting that was among the widest and thinnest available. We're pleased to add these new products to our line-up, and to support our customers in a variety of industries – particularly wide format printers, who'll love being able to have magnetic receptive options up to 60" wide!"
